

Brackley Town Council

Health & Safety Policy Statement

HEALTH & SAFETY POLICY STATEMENT

It is the policy of Brackley Town Council (The Council) to secure; so far as is reasonably practicable, the health, safety and welfare at work of all its employees.

The Council recognises that each employee is a valuable asset and that risks to their health and safety should be identified, evaluated and controlled. This will benefit both the individual and the Council.

The Council also recognises its duty to discharge its common law and statutory duties to those who may be visiting, or who may be affected by the Council's activities.

The vision, values and beliefs of the Council regarding health and safety will be communicated throughout the Council by the Town Clerk and its representatives.

Responsibility and accountability for matters of health and safety and welfare lie with both the Town Clerk and the Employees of the Council. They should develop a culture supportive of health and safety so as to improve on a continuing basis control over risks to health and safety.

This policy will be kept up to date, particularly as the Council changes in nature and size. To ensure this, the policy and the way it operates will be reviewed every year.
