Weekend 1:

Friday 26 March – Saturday 27 March

Weekend 2:

Friday 9 April - Saturday 10 April

Weekend 3:

Friday 16 April – Saturday 17 April

What we are doing / the benefits

Northamptonshire Highways will soon start works on Buckingham Road Industrial Estate.

Works include resurfacing the carriageway to renew the structure and provide a safer and long lasting new surface.

Traffic Management

To ensure the health and safety of the workforce and the public the works will be carried out under a road closure.

A diversion will be in place at all times as shown on the map overleaf, **the red line** shows the road closure and the **blue line**, shows the diversion. This will allow us to carry out the works more efficiently and minimise the disruption to residents. Access to residents and businesses will be maintained at all times but please allow extra time for your journey.

When programming repair works, we consider the impact on all road users and plan our works to minimise disruption. We do understand that the closure will be inconvenient but works can only be completed safely and efficiently with this in place. We hope any inconvenience will be tolerated for the duration of the works

Information for residents and businesses

Access: A road closure will be in place. Access for business owners and companies within Brackley Industrial Estate will be maintained at all times. This may take a little longer than usual to ensure the area is safe.

Pedestrians and cyclists: footpaths will be open at all times. Cyclists may be asked to dismount and walk. Pedestrian marshals will be on site to assist.

If you have any concerns please contact the Site Manager for further information.

COVID-19 message

Government identified key workers are carrying out essential highway works for us, whilst maintaining social distancing and following all COVID-19 guidelines to ensure the health and safety of our workforce and residents.

Northamptonshire Highways, its contractors and suppliers are identified as key workers as defined by the government: “***those who will keep the air, water, road and rail passenger and freight transport modes operating during the Covid-19 response including those in supply chains***”, and that these works have been defined as essential works by the government.

Our priority is to keep the highway network open and safe. We are also working to keep on programme with highway works to improve communities and repair roads

We would like to assure you that all of our site teams have been extensively briefed on all Government Guidance regarding social distancing, increased cleanliness and working within communities. The Government has also permitted that workers, where necessary, may be in groups of more than two to undertake works and that, whilst the 2-meter physical distancing rule should always try and be achieved, this would not always be practicable.

Reporting defects and issues on the highway

To ensure any enquiries are dealt with correctly and to report defects please use our online Street Doctor service. This process ensures issues are recorded and dealt with appropriately. Once reported you will be issued with a unique reference number and be able to follow the progress of your enquiry.
